

UNLOCK THE FULL STUDENT STORY: BEYOND GRADES AND TEST SCORES

Student success isn't just defined by what happens between bells. It's built in the debate club, on the athletic field, in the community, and through hands-on learning. But tracking, validating, and showcasing that crucial out-of-classroom experience has always been a heavy administrative lift. Until now.

Passport for Good provides a simple, powerful platform to capture, manage, and celebrate the entire student journey. Our intuitive platform empowers students and staff to easily log and verify all co-curricular and extracurricular activities, providing a holistic view of student achievement.

PROBLEMS	⇒	THE PASSPORT FOR GOOD SOLUTION	
Complex Pathways Administering new graduation pathways, like the New York State Seal of Civic Readiness, creates a significant tracking burden.	→	Seamlessly Manage Civic Readiness Effortlessly track and manage the requirements for the Seal of Civic Readiness. Ensure compliance and simplify reporting with a centralized, verifiable system.	
The Invisible Transcript Student participation in sports, clubs, volunteering, and work-based learning is difficult to quantify, leaving key experiences unrecognized on traditional transcripts.	→	Capture the Complete Student Story Track participation and reflections from community service, clubs, athletics, internships, and leadership roles. Create a rich, non-academic transcript that students can use for college, scholarships, and career opportunities.	
Disengaged Students In 2022-23, nearly 1 in 3 students in New York were chronically absent. Many students may not feel seen when their interests and passion are not reflected in GPA and SAT scores.	→	Empower and Engage Students Give students ownership of their journey. Our platform encourages them to find opportunities, log their experiences, and reflect on the skills they've gained. They build a dynamic digital portfolio that showcases their character, dedication, and real-world readiness.	
Administrative Overload Staff are buried in paperwork, chasing signatures, and manually entering data, taking valuable time away from supporting students.	→	Save Time For Administrators Eliminate stacks of paper and cumbersome spreadsheets. Our logging workflow, supervisor verification, and reporting saves countless hours, allowing you to focus on what matters most: your students.	

“It has been a powerful tool for our district to make decisions, increase student involvement, and grow our enrichment programs. The platform is user friendly for staff and students alike. Passport for Good is responsive, supportive, and invested in our district's success.” -- JENNIFER REYNOLDS, ARKPORT CSD
